

## Client Case Dolby Laboratories

### Service Description

Dolby decided to change their Supply Chain strategy from in-sourcing to out-sourcing to benefit from cost efficiencies and strengthen their Pan European logistics footprint to even better offer their hardware solutions to their EMEA customer base.

### Solution

All-in Logistics is offering Dolby a highly flexible, personal and customized Supply Chain solution for all Dolby entertainment products. Our one-stop-shop solution includes warehousing, value added Logistics, technical services, distribution and service logistics, including European parts management and swap services.

Services offered:

- Inventory Management, storage & 'TAPA' compliant warehousing
- Value-added services (kitting, repackaging, etc.)
- Technical services: triage (testing), system configuration & assembly
- Secured distribution
- Point-of-Sales activities
- Reverse logistics & Parts Management, supporting Pan-European after sales processes

All business processes are driven by system integration and managed by All-in Logistics' real-time and web-based All-in Control system, providing full visibility and control over the total process.

### Result

Dolby Laboratories is a professional and established high-quality brand in the entertainment industry. By outsourcing their Supply Chain processes, Dolby handed over the responsibility of offering high-quality logistics and services to their esteemed customers to All-in Logistics. Now Dolby can focus even more on their core competencies and expansion strategy in EMEA. At the same time their business operations continue to be managed in line with corporate values.

## Introducing Dolby Laboratories

Dolby Laboratories is the global leader in technologies that are essential elements in the best entertainment experiences. Founded in 1965 and well known for high quality audio and surround sound, Dolby innovations enrich entertainment at the movies, at home, or on the go. Dolby offers processors, adapters, and accessories, all designed for top performance and utmost reliability.
