

## Client Case Samsung Electronics

### Service Description

Samsung Electronics recognizes that flexibility in logistics is the key to successful product introductions and sales promotions to serve its demanding customer base. Therefore, Samsung have outsourced the logistics of their time to market product portfolio to All-in Logistics.

### Solution

All-in Logistics is able to offer unmatched flexible logistical processes and point of sales services.

Services include: point of sales order fulfillment, storage & warehousing, Inventory Management, value-added services (re-packaging (retail), kitting, sleeving, etc.), firmware adjustments, WAP settings, rework activities, transport management and distribution, EDI management and E-invoicing.

All business processes are driven by system integration and managed by our real-time web-based All-in Control System, providing full visibility and control over the total process.

### Result

Tailored logistical solutions provided by All-in logistics support Samsung Electronics dominating the market for innovative consumer electronics.

## Introducing Samsung

Samsung have grown to become one of the world's leading electronics companies, specializing in digital appliances & media, telecommunications networks, semiconductors, memory and system integration. Today Samsung's innovative and top quality products and processes are worldwide recognized.

*"We will devote our human resources and technology to create superior products and services, thereby contributing to a better global society."*
